

Installing the HKUL bookmarklet on iPad with iOS 7

Step 1: Change settings

1. Go to **Settings**

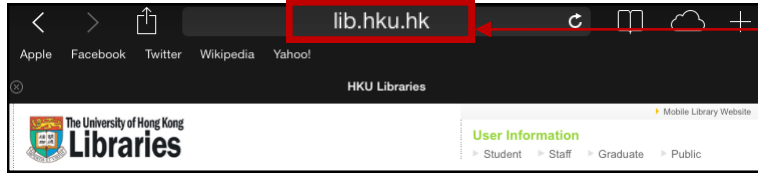

2. Tap **Safari**

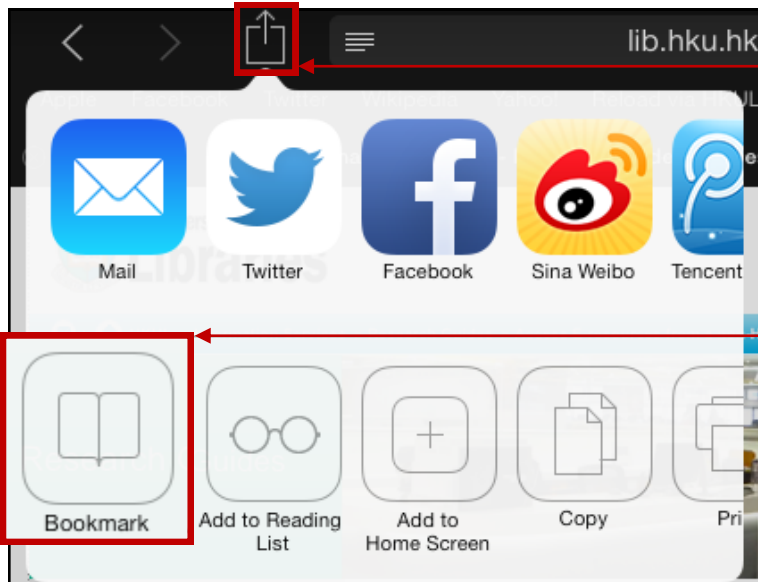

3. Turn on **"Show Favourites Bar"**

4. Set Block Cookies to either **"From third parties and advertisers"** or **"Never"**

Step 2: Add bookmarklet to Safari

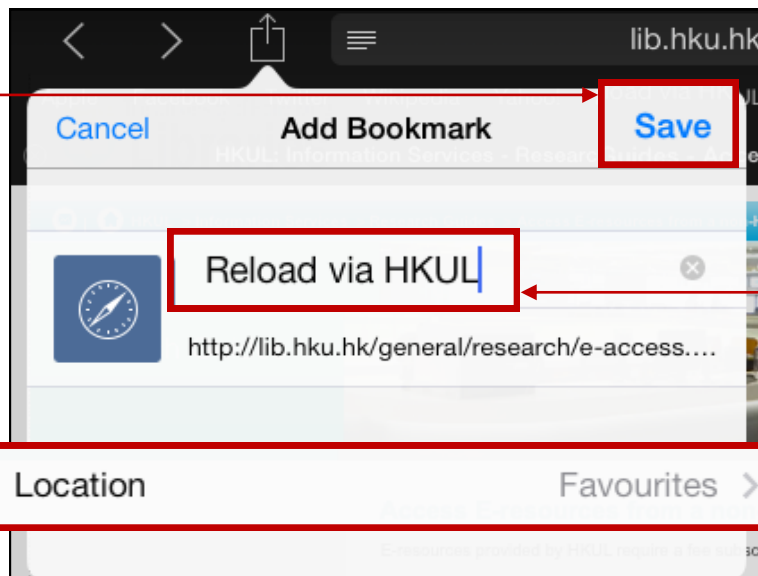

1. Launch **Safari** and go to any website

2. Tap the **Share** button

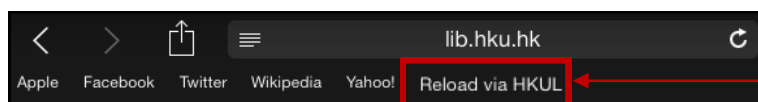

3. Tap the **Bookmark** icon

4. Change the bookmark title to "Reload via HKUL"

5. Set Location to "Favourites"

6. Tap "Save"

7. You will find a **new bookmark** in the Favourites Bar

Step 3: Edit the bookmarklet script

1. Copy the bookmarklet script:

```
javascript:void(location.href=%22http://eproxy.lib.hku.hk/login?url=%22+location.href);
```

2. Tap the **Bookmark** button. Then, open the **"Favourites"** folder

3. Tap **"Edit"**

4. Select the bookmark **"Reload via HKUL"**

5. Tap **⊗**, then **paste** the bookmarklet script

6. Tap **< Favourites** to return to the previous screen

7. Tap **"Done"**

TIPS FOR COPYING

```
javascript:void(location.href=%22http://eproxy.lib.hku.hk/login?url=%22+location.href);
```

1. Touch and hold to select the word **"javascript"**. Then, release

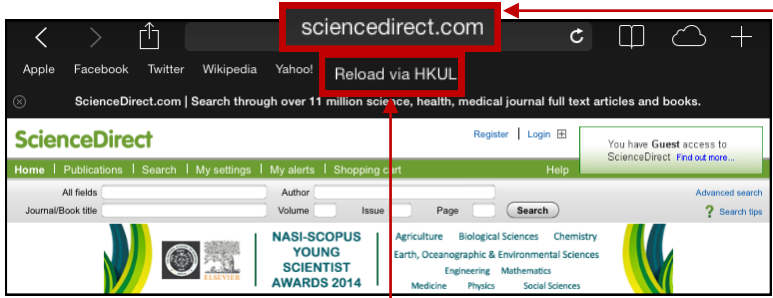

```
javascript:void(location.href=%22http://eproxy.lib.hku.hk/login?url=%22+location.href);
```

2. Drag the grab point to select the entire script

```
javascript:void(location.href=%22http://eproxy.lib.hku.hk/login?url=%22+location.href);
```

3. Tap **"Copy"**

Step 4: Give it a try

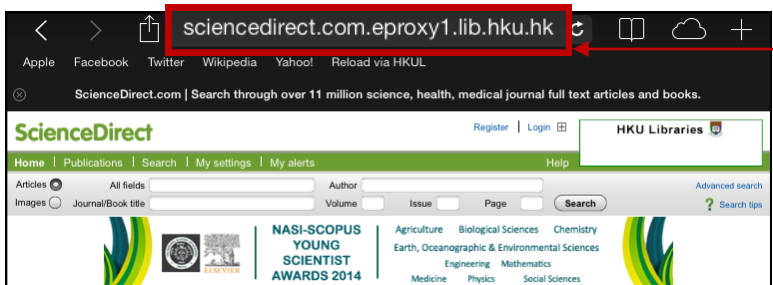

1. Go to a web page that you would like to redirect through the Libraries' EZProxy server, e.g. <http://www.sciencedirect.com/>

2. Click on the bookmark "Reload via HKUL"

3. Enter your HKU Portal UID/ library card number and PIN

4. Note that the bookmarklet works only if the HKU Libraries has a subscription to the resource
