

## Fung Ping Shan Library User Survey 2017: Responses to Key Comments

The Fung Ping Shan Library received only three comments related to our provision of resources, services and facilities in this survey. They included suggestions in acquiring a book sterilizing machine, relocating books relegated to Hing Wai Storage back to the Library and improving wi-fi connectivity at the Library. We will take these feedback into consideration when further enhancing the services of the Fung Ping Shan Library.

Located in the Main Library building, the Fung Ping Shan Library inevitably shares some of the comments addressed to the Main Library, such as availability of learning spaces, computers and printers, as well as wi-fi connectivity and cleanliness. Please click [here](#) for Main Library's responses to the top ten comments.
