# NVivo 11 Pro

USER GUIDE

GET STARTED WITH NVIVO 11 PRO

NVivo 11 Pro is a software supports qualitative research. It enables users to organize, manage and analyze the unstructured or semi-structured data from texts, images, interviews, surveys, videos, surveys and social media.

This software is only available at the Music Library PC 3.

STEP 1

Open the HKU Libraries Application Manager. Double click to launch NVivo 11.

STEP 2

To create new project file, click on "Blank Project".

STEP 3

Select the location for saving the file under "Browse". You are advised to make a copy in your personal hard disk or USB drive. The library is not liable for any information loss upon turning the computer off.
