Dental Library
User Survey 2014: Responses to Key Comments

1. **To extend opening hours during examination period and to open on Sunday**

   Dental Library has actually extended its opening hours to 11:00 pm over the years during the examination period. However, due to the low entrance statistics on Mon-Fri after 10:00 pm and Saturday, it is quite unlikely that Dental Library will further extend its opening hours during examination period and open on Sunday. Alternatively students are advised to study at the Library Corner (24x7) at G/F or the Study Zones (22.5 hours access) at Level 3 in Main Library.

2. **To purchase more dental-related books**

   Dental Library has been making every effort to purchase books relating to dental and medical sciences in order to meet the learning and teaching curriculum of the Faculty of Dentistry. As a matter of fact, more copies will be purchased provided the books are in high demand. Besides, students are welcome to recommend books to Dental Library at **Book Recommendation Online**. Details can be found at [http://www.lib.hku.hk/general/e-form/eform_book.html](http://www.lib.hku.hk/general/e-form/eform_book.html)

3. **To have books deliver to Dental Library from other libraries (Main and Branch Libraries)**

   With effect from 3 November 2014, library users may make an Inter-branch Delivery Service request to have the books, whether they are on the bookshelves or currently checked-out to borrowers, transferred to Dental Library from Main Library or any branch libraries. Please find out the details at [http://lib.hku.hk/cdd/ibs.html](http://lib.hku.hk/cdd/ibs.html)

4. **To label the book shelves by subjects (e.g. periodontology, oral surgery ...etc.)**

   There are actually Black Classification sheets, which precisely indicate different subjects of dentistry, adhered to some of the bookshelves. For further queries, please proceed to the Circulation/Reference counter for assistance.
5.  *More computers to access the X-Ray scanner*

According to the Technology Support Services Division, the system technically does not allow more computers to access the X-Ray scanner in Dental Library. In other words, only one designated computer may access one designated X-Ray scanner. At present, there are two X-Ray scanners available in Dental Library.
